## Objective

- Enthusiastic and dedicated software developer and undergraduate student seeking experience and an entry-level position in software development.

## Technologies

- **Languages:** C++, C, Python, C#, Assembly, Java, Javascript

- **Frameworks:** Ruby on Rails

- **Utilities:** Unix/Linux, bash, git, vim, LaTeX

## Education

- **The University of Alabama** — Tuscaloosa, AL
  *B.S. Computer Science* — *2013-May 2017*
  - Engineering Leadership Scholarship recipient
  - Presidential Scholarship recipient
  - 3.28 GPA
  - Minors: Physics, Mathematics
  - Related Coursework: Digital Logic Design, Data Structures and Algorithms, MicroControllers, Software Engineering, Modern Physics, Chemistry, Programming Languages, Operating Systems, Database Management Systems

## Career Experience

- **The University of Alabama** — Tuscaloosa, AL
  *Student AudioVisual Technician/Technical Support* — *May 2015 - Present*
  - Created a new organization system for inventory which decreased time needed to take inventory and increased efficiency in locating specific items in the office.

- **The University of Alabama** — Tuscaloosa, AL
  *Teaching Assistant* — *Spring 2015*
  - Helped the two most successful courses in Introduction to Programming (C Programming) succeed by motivating students to develop programs on their own for practice
  - Converted several students from other majors to Computer Science majors with my enthusiasm for programming
